2020 CENSUS: COUNTING ON YOUR CONSTITUENTS

People live in hard-to-count neighborhoods in every district!

Make sure your community is fully counted to keep our Congressional seats and federal funding!

1. Make the Census a priority for your district
2. Encourage cities and counties to update addresses
3. Ensure the Census is fully funded
4. Encourage the creation of Complete Count Committee locally

Notes & References:
- "Hard-to-count" is a census tract with a self-response rate of 73% or less during the 2010 decennial census.
